Qualifications

Aarhus University: MSc in Biology (2010–2012)

University of Copenhagen: BSc in Environmental Science (2006–2010)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over 13 years of experience, I've had the privilege of tutoring students from a wide range of educational backgrounds. I specialize in guiding students through IB and A-Level Biology, ensuring that they grasp both fundamental and advanced concepts. I work closely with students to ensure they are well-prepared for their exams and coursework.

My tutoring approach is focused on building a deep understanding of biological concepts. Over the years, I've helped students achieve success not only in their IB and A-Level exams but also in their general understanding of biology. Many of my students have pursued further studies in life sciences and environmental studies at leading universities.

I'm also experienced in tutoring students preparing for AP Biology, IGCSE, and GCSE exams. My goal is to ensure that students leave each session with a stronger grasp of the subject, ready to tackle their academic challenges with confidence.
