Kyoto University: BSc in Applied Mathematics (2006–2010)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over a decade of tutoring experience, I have worked with students from various backgrounds, helping them achieve top results in IB, A-Level, and AP Maths. My focus is always on building a deep understanding of core mathematical principles to prepare students for high-level exams.

In addition to school-level tutoring, I've also supported university students in more advanced mathematical subjects. My broad range of experience has helped students develop confidence in solving complex problems and applying mathematical concepts across different disciplines.
